DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-4, 6, and 7 are rejected under 35 U.S.C. 101 because in the state of the art, transitory signals are commonplace as medium for transmitting computer instruction and thus, in the absence of any evidence to the contrary and given the broadest reasonable interpretation, the scope of an "information storage medium" covers a signal per se.

Allowable Subject Matter

2. Claims 10 and 11 are allowed.
